

MEng_Log: 002 (13/02/2023)

Remarks on Previous Log

- Decided not to do remote desktop, only working on my laptop
- Read about marine vehicle modelling and 3,4 and 6 DOF
- Did not really start with ROS
- Also replicated some differential functions in MATLAB from UCT MEng

Current Log

- Look at modelling a sailboat in Simulink, follow one research paper
- Further read up in marine handbook
- Attend SS315 tutorial
- Learn some ROS
- Ask about the existing hardware and then plan on what hardware you can start working on
- Implement a simple wing controller in the completed sailboat simulink model
